

Schedule PI Restricted Irrigation Pumping

Effective January 1, 2025

Applicability

This schedule is applicable and restricted to pumping of ground water for drainage or irrigation for the purpose of Agricultural/Livestock Production within the irrigation service area boundary where such pumping is eligible to be served with electricity sold to the District by the City and County of San Francisco pursuant to Section 9(1) of the federal Raker Act. This schedule is applicable on an annual basis only.

Character of Service

Alternating current; frequency of approximately 60 cycles; single- or three-phase; delivery will be made at such nominal voltage as customer selects from among those the District designates are available at the customer's premises.

Rates

The rates consist of the following Customer, Connected Load and Energy Charges:

	Effective January 1, 2025	Effective January 1, 2026	Effective January 1, 2027
On Season Customer Charge – per month	\$13.50	\$15.50	\$17.00
On Season Connected Load Charge – per HP	\$3.00	\$4.00	\$5.00
On Season Energy Charge – per kWh	\$0.0918	\$0.0895	\$0.0905
Off Season Customer Charge – per month	\$13.50	\$15.50	\$17.00
Off Season Energy Charge – per kWh	\$0.1654	\$0.1654	\$0.1654

Minimum Charge

The minimum charge for each monthly billing period or portion thereof during the following seasons shall be:

On Season - The Customer and Connected Load Charges

Off Season - The charges calculated pursuant to Special Condition 7.

Special Conditions

- Customer accounts billed under this schedule are subject to additional charges as stated in the Conditions and Surcharges.
- 2. For customers changing schedules between billing dates (except for time-of-use), the schedule in effect at the time of the end of the normal billing period will be used to compute the bill. For billings where a customer is changing from or to a time-of-use schedule, the first bill on the new rate schedule will be based on the meter readings taken on the opening meter reading date and the next regular meter reading date.
- 3. Any customer who reapplies for service within 12 months of canceling that same service must pay, before the new service will be provided, any Customer Charges, Demand Charges or Connected Load Charges (as applicable) that would have otherwise been payable between the cancellation date and the new service date.
- 4. The Demand or Connected Load Charge and Power Factor charge (as applicable) shall be prorated on opening and closing bills where the billing period is greater or less than the average 30-day period.
- 5. For beginning bills where the billing period is less than 10 days, the Customer Charge will be waived

- and the Energy Charge and Connected Load Charge included in the next billing period.
- 6. The Connected Load shall be the lesser of the following based upon available data: (a) the sum of the capacities in kW of all the customer's equipment that may be operated simultaneously from the District's line or (b) 80% of the customer's service entrance size in kW. Such capacities will be determined by equipment nameplate. Where the nameplate is inaccurate or missing, test data may be used.
- 7. The Customer and Connected Load Charges for the On Season shall apply for not less than 6 consecutive months in a 12-month period. The customer shall designate the consecutive months in which the Customer and Connected Load Charges shall apply. During the Off Season months within the 12-month period, the customer will be billed at the lesser of the following: (a) the Off Season Energy and Customer Charges, or (b) the On Season Customer, Connected Load and Energy Charges. The customer will not be billed during any Off Season month in which no energy is used.

Revised Date: January 1, 2025
